SUMMARY

Detail-oriented and driven learner with a strong foundation in front-end development, problem-solving, and teamwork, gained through collaborative and real-world projects. Proficient in JavaScript, React, HTML, CSS, and Jest, with growing experience in Java and backend technologies. Seeking a software development role where I can apply full-stack skills to create user-focused and responsive applications in a collaborative environment.

LANGUAGES | FRAMEWORKS | TOOLS

Java, JavaScript | React, | MySQL

EXPERIENCE

Project Name — University data with Chatbot

A responsive single-page React application that helps users explore university data and ask questions via a chatbot.

- Developed a chatbot feature with dynamic question handling and toggle functionality.
- Designed and implemented a responsive table displaying university data fetched from a JSON source.
- Built multiple React components including Home, About, Register Form, and Students page with modular CSS.

Full Project Tech Stack: React, JavaScript, HTML, CSS, Vite, Chatbot logic, Git, Netlify (for deployment)

EDUCATION

LaunchCode, Software Development Course, 2025.
